New home page photography. The photo shoot is now front and center: the core cans standing in a row lead into "Where to start", and a five-photo "Respect the apple" spread sits under the medals.

Navigation. Our Story, Ciders, Releases and The Club in the header, with a "Find a can near you" button on every page.

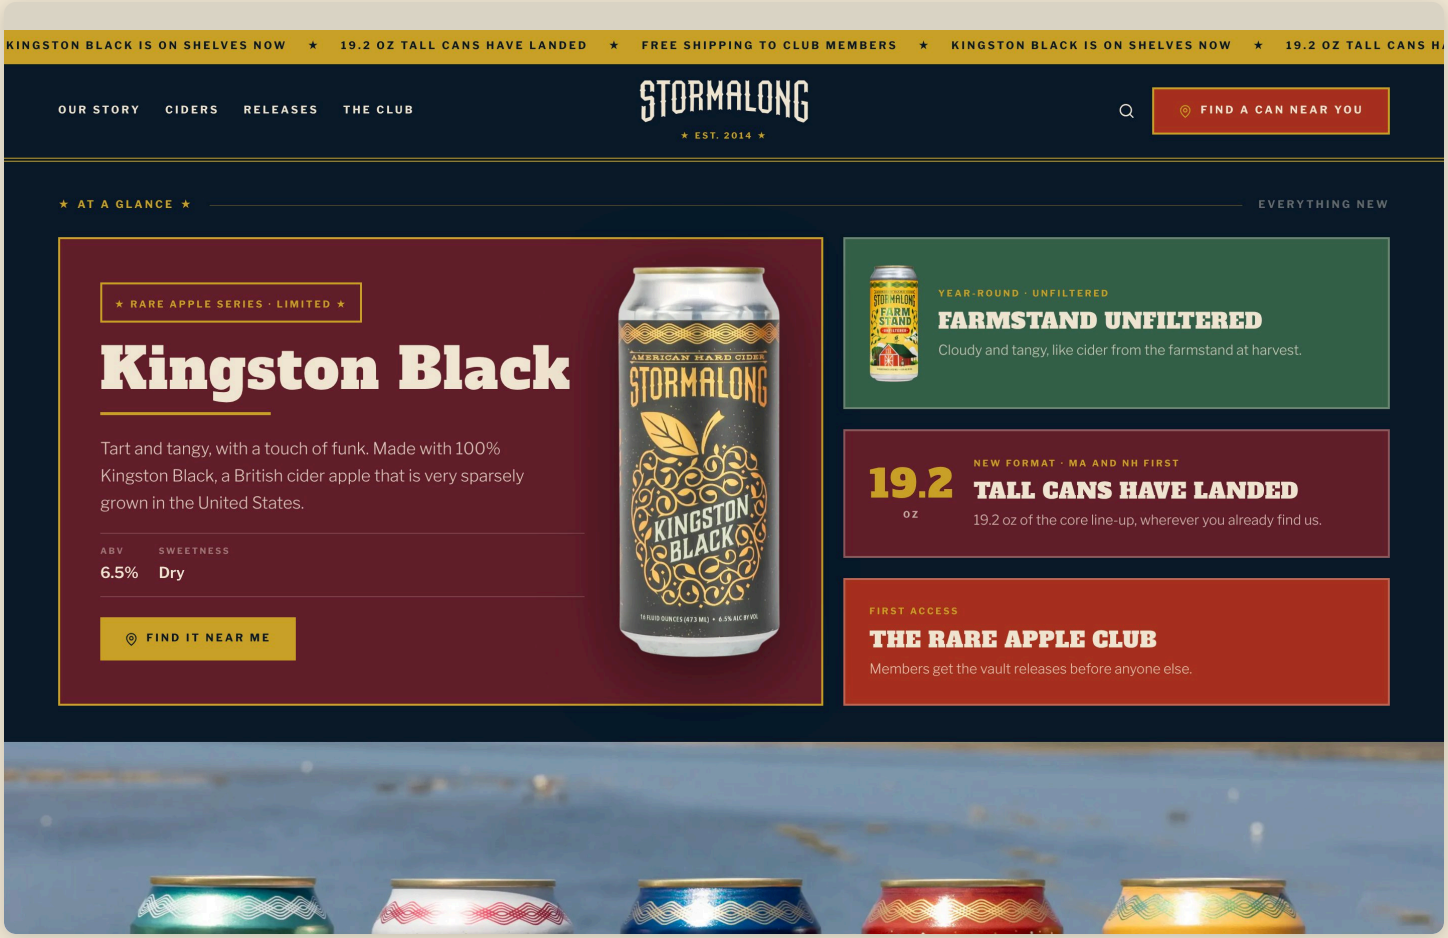

Built for phones. Every page adapts to mobile with a menu button. Each walkthrough page shows the mobile view on the right.

Fast. Every page is prebuilt ahead of time, so pages load quickly and search engines can read them.

Every page ends with a next step. Each closes with a "Know which one you want? Find it" prompt and an email sign-up in the footer.
